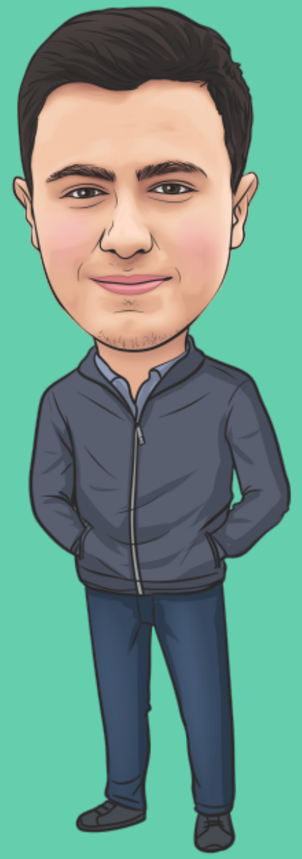
FINAL: ONLINE THINKATHON

TALKMAZE

PRIORITIZING EMPOWERMENT WITHIN OUR DIGITAL FUTURE.

Make public speaking education a priority by offering it as a separate course at every K-12 school. Invest in an online platform to educate educators on how to deliver these programs consistently to ensure accessibility to all individuals.



Our Recommendation

8 OUT OF 10

People struggle with public speaking.

10%

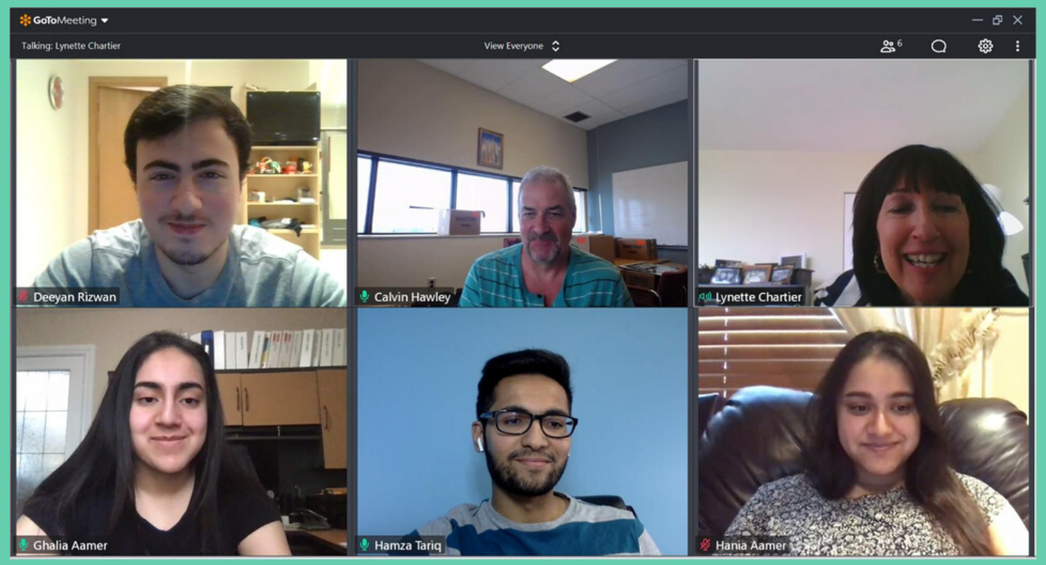
increase in wages by learning public speaking

15%

Increase in promotions to management

40%

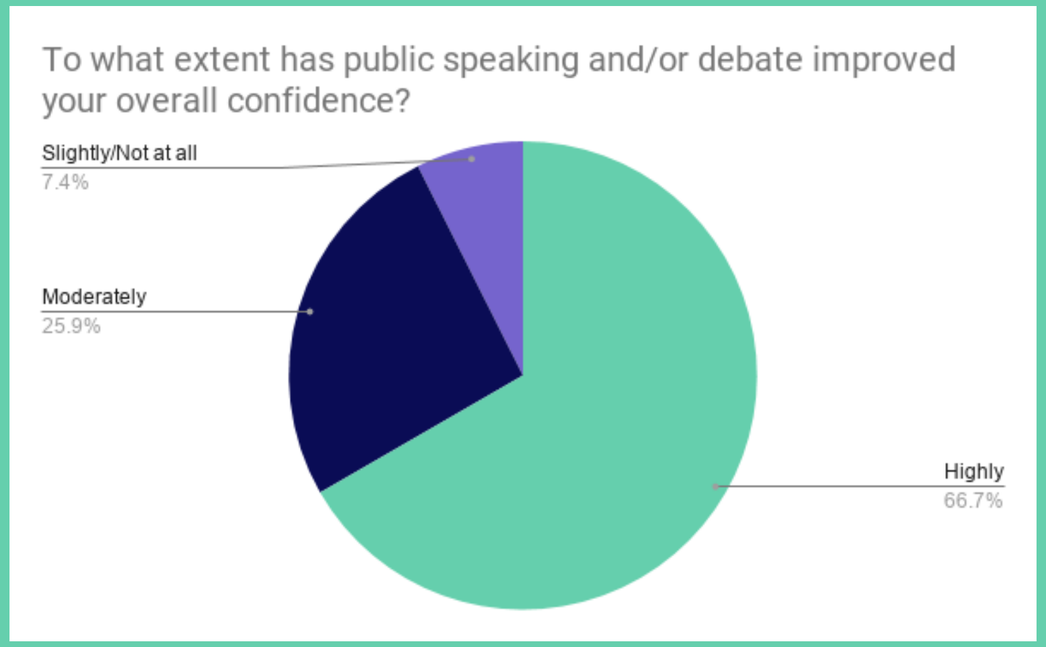
Higher graduation rate of public speakers



Our Research

Who are the stakeholders?

- Governments
- Education Officials
- Teachers
- Parents
- Students



Implementation

STEP 1

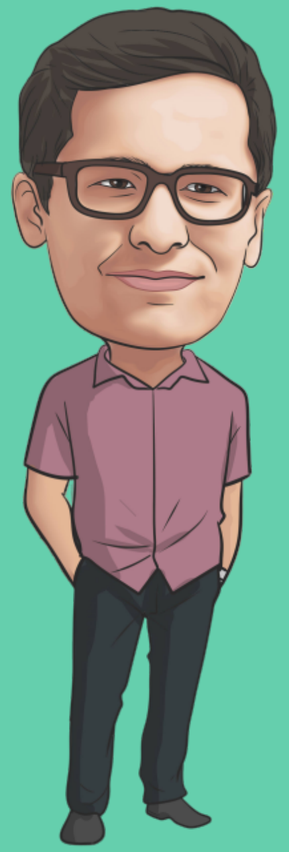
Introduce public speaking courses in school curriculums.

STEP 2

Develop an online platform to be used across Europe and Canada for delivering the courses.

STEP 3

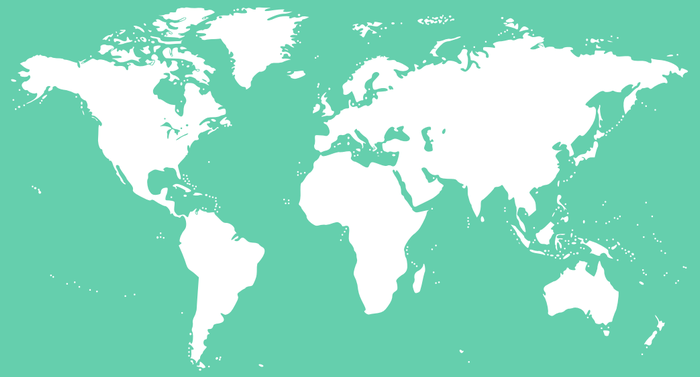
Implement the programs in schools across all countries.



Ensuring that educators in all regions have access to technology to learn about the new programs. Helping educators deliver in person courses for students in rural and urban areas.

DIGITAL INCLUSION

How do we implement this proposal in Europe where countries have their own education policies?



- Gain visibility by presenting our proposal to relevant officials in Europe.
- Work with organizations like **European Schoolnet** and **The Lifelong Learning Platform** to facilitate the execution of this policy proposal.
- Establish a committee dedicated to enhancing public speaking education across Europe and Canada.

What Sets Team TalkMaze Apart

CREATIVITY

We offer an innovative approach using technology to solve a pressing issue.

IMPACT

We've demonstrated a clear need, unique opportunity, and sizeable impact.

RELEVANCE

The project uses a model that educates educators in order to effectively address digital inclusion.

DIVERSITY

We propose a solution that focuses on addressing underrepresented communities.

THANK YOU!
